King Technology

Sr Financial Analyst

Reports to:	CFO	Department:	Finance
Classification:	Exempt	Last Updated:	07/15/24

Job Summary:

The Sr Financial Analyst at King Technology will be responsible for providing comprehensive business analysis and reporting to support strategic decision making and business planning. This role involves collaborating with various departments to understand key data that drives financial performance, developing financial models and analysis, and communicating clear and concise business insights. The role supports the CFO directly and will help define and implement an effective FP&A function to support the company's aggressive growth.

Essential Functions:

- Use solid financial knowledge and business acumen to build financial models, interpret data, draw conclusions and make recommendations that deliver results and drive improvement
- Provide regular commentary and analysis for monthly financial reporting to Executive Leadership and the Board of Directors
- Develop and lead the FP&A function in providing forecasting, budgeting and financial analytical support across all functions of the organization
- Act as core Finance team member on new product development opportunities; partner with product management to provide competitive intelligence, market assessments and cost analysis in support of prioritizing projects
- Create and maintain dashboard metrics that track performance on key company initiatives
- Develop strong understanding of industry, product lines, customers, vendors, and competition
- Support M&A development opportunities & other strategic projects; act as due diligence and integration team member
- Lead change, provide creative solutions, and influence multi-discipline teams with data, analytical reasoning, and strong influencing skills
- Other duties as assigned

Job Qualifications:

- BA/BS in Finance or Accounting;
- Minimum of 3 years experience, with 5 plus years preferred
- Proficient in Excel, PowerPoint & Power BI
- Experience with SQL and ERP software is a plus
- Ability to operate in a highly focused, entrepreneurial environment with expectation to challenge and influence business decisions based on data driven analytics
- Must be a self-starter who thrives on taking ownership over work and responsibilities
- Outstanding interpersonal and communication skills
- Detail oriented with strong analytical and problem-solving abilities
- Collaborative team player
- Embrace and foster company values of Integrity, Excellence, People Chemistry, Golden Rule, Courage and Servant-Leadership.
